Pending Status

Once you have uploaded a document in the system your status is changed to “Pending”. This means that you are put into a special area of the system that alerts your advisor of the document you have uploaded in the system. Your advisor will see your name in pending and view the resume or document that you have uploaded within 48 hours. If the resume/document looks good your status will be changed back to allow you to see jobs. If your resume/document is not acceptable you will remain in pending and your advisor will be in contact with you regarding the changes that must be made.

Note: Immediately after uploading a resume/document you will be categorized as “Pending” and unable to view jobs until your advisor has reviewed your resume/document and changed your status. If this has not happened within 48 hours please contact the advisor you are working with. If you would like to view jobs it is advisable that you do so prior to uploading your document. After this initial upload and approval process you will be able to view jobs every time that you access the system.
